KRT2 Bluetooth

Bluetooth adapter for KRT2 radio.

1. Connect the unit between radio and the existing connector.
2. Lock in place using the latches on both sides.
3. Power up the radio.
4. In your android phone turn on bluetooth and initiate scan.
5. Pair with 'KRT2-BLUETOOTH' using pin 1234.
6. Install the 'KRT2 Bluetooth' app from the PLAY store.
7. In the app tap the bluetooth icon to select appropriate bluetooth device.
8. Tap the same icon again to connect the radio. When connected the icon turns blue.
8. Create or modify your stations list.
9. Upload into the radio using the upload icon. This operation usually takes ~ 30 seconds.

Optional usage:
10. To share a stations list tap the share icon. This exports a .csv file to your phone or an application of your choice (email, messenger, etc.).
11. To import a .csv file hold long on the file and from a menu choose "Send to */*". Then pick the KRT2 Bluetooth application. New item will appear   on the home page of the app.
12. Delete a list by dragging the row to the right.

Enjoy the benefits of KRT2BT! :)
